Executive Summary

This report summarizes the Asian Infrastructure Investment Bank's (AIIB or the Bank) information disclosure practices under the <u>Policy on Public Information</u> (PPI) and related Bank policies during the period from April 1 to June 30, 2024.

It is divided into two sections. The first section looks at AIIB's practices in proactive disclosure. The second section provides an overview of AIIB's responses to information requests.

During Q2 2024, the Bank's proactive disclosure of information tracked was all in compliance with AIIB's requirements:

- All institutional information was disclosed in a timely manner in line with the requirements set out in the PPI.
- This report tracks operational information, including the initial Project Summary Information (PSI), project document (PD) and the Client's draft environmental and social (ES) documentation. Disclosure of the initial PSI, PD and Client's ES documentation in Q2 2024 was in line with relevant requirements.

AlIB's Environmental and Social Framework (ESF), as amended through November 2022 replaced the May 2021 ESF and entered into force on Nov. 22, 2022. However, Management, in its discretion may continue to apply the ESF, as amended through February 2019, to Projects that entered the pipeline prior to Oct. 1, 2021. The 2024 ESF provides for Climate Policy-based Financing (CPBF), replaces the November 2022 ESF and enters into effect on June 26, 2024. Most projects covered in this report are governed by the 2022 ESF, except for a few projects that were included in AlIB's investment pipeline before Oct. 1, 2021. Only one project, namely the Bangladesh: Climate Resilient Inclusive Development Program (Subprogram 1) project, is governed by the 2024 ESF. This report indicates which Environmental and Social Policy (ESP) applies to which projects. All project information tracked was timely disclosed.

The Bank received 85 requests from the <u>Public Information Request portal</u>, a decrease of 5% from the previous quarter. All these requests were closed within the required 30 working days upon their receipt. There were no appeals during the reporting period. Project and career opportunities continued to be the top request categories. China, USA and India are the top three origins of requests.

1. Proactive Disclosure

AIIB proactively discloses information according to the Directive on Public Information on:
