<b>Environmental and Social Category</b>	ADB has categorized this Program under its Safeguards Policy Statement (SPS) as Category C for environment, involuntary resettlement and Indigenous Peoples.
<b>Environmental and Social Information</b>	<p>AIIB’s ESP was designed to apply to investment projects and has no provisions for its application to policy-based lending operations. Accordingly, the proposed Program, which is co-financed with the ADB as lead cofinancier, has been prepared in accordance with the provisions of ADB’s SPS applicable to policy-based lending as permitted by AIIB’s Board of Directors’ Decisions to Support the AIIB COVID-19 Crisis Recovery Facility. This will ensure a harmonized approach to addressing the environmental and social (ES) risks and impacts of the Program.</p> <p>Under its SPS, ADB has categorized the Program as Category C for environment, involuntary resettlement, and Indigenous Peoples on the basis of an assessment of the countercyclical expenditures to be supported by the Program. These focus on expanding and strengthening social safety nets for the most vulnerable groups and are not expected to have any adverse environmental or social impacts. The proposed Program has also been categorized by ADB as “effective gender mainstreaming at entry”, as it strengthens the government’s response to the COVID-19 outbreak by addressing gender and social inclusion needs. ES monitoring will be conducted based on guidelines and check lists determined by ADB.</p>
<b>Cost and Financing Plan</b>	<p>Program cost: USD 2,250 million</p> <p>Financing Plan:</p> <ul style="list-style-type: none"> <li>• AIIB loan: USD 750 million</li> <li>• ADB loan: USD 1,500 million</li> </ul>

<b>Independent Accountability Mechanism</b>	AIIB's Policy on the Project-affected People's Mechanism (PPM) addresses issues raised under AIIB's ESP, which does not apply to policy-based operations such as this one. Submissions to the PPM under the Program would, therefore, not be eligible for consideration by the PPM. ADB's independent accountability mechanism addresses issues raised by persons adversely affected by an ADB-assisted project and allows them to report alleged noncompliance with ADB's operational policies and procedures, including SPS.
